Inspiring And Empowering All Learners
For Tomorrow's Challenges

Dear Parents,

I wanted to provide an update regarding the drinking water at the Elementary School.

On December 22, 2025, Knepper's completed the installation of new waterlines supplying the hydration stations throughout the building. As part of this work, all classroom water fountains were disconnected to ensure that all drinking water now utilizes our filtration system.

Knepper's also installed an inline water filter on the new waterlines feeding the hydration stations and thoroughly cleaned calcium buildup from each unit. Knepper's Water Service has confirmed that the hydration stations are safe for use at this time.

Out of an abundance of caution, the water will be retested later this month. While the exact date has not yet been scheduled, I will share that information as soon as it becomes available.

Thank you for your patience and understanding as we continue to ensure a safe and healthy environment for all students and staff.

Sincerely,
Dr. Tara Will
